Start your search by clicking on MESH Database in PubMed.
Enter your term to start your search for guidelines. For example we will be searching for "Diabetic Foot Ulcers". Type this in the search box then click on "Search".
Check the boxes that apply to add subheadings to your search. When done click on "Add to search builder" on right. We want to add it with "AND". Then click on "Search PubMed".
Check the boxes that apply to add subheadings to your search. When done click on "Add to search builder" on right. We want to add it with "AND". Then click on "Search PubMed".
Our search results are displayed for "Diabetic foot ulcers". We now need to select our filters.

To do this, click on "Show Additional Filters" to the left of the search box. Check the box that applies to the filter you would like to select. Then click on "apply". Then put check marks beside the filters by clicking on them. Once the filter is selected it will have a check mark beside it.
Displayed are your search results after applying the limits to your search.
Click on the blue "Find it @MUSC Library" icon to check to see if we have access to the full text of the article.
Please pay attention to the articles "date", "volume", "issue", and "page". Then click on the link that applies to the coverage range for the article.
If you come across one that displays this message "Sorry, the Library does not have this article" please click on "Request the Article". We can obtain the article from another library at no charge when you choose "Basic Service".
